All of the documents referred to above should be delivered to me in electronic form on a CD to avoid paper copying charges. The documents should be delivered in an electronic form that can be read by Microsoft Word or Adobe Acrobat Reader.

If you expect to charge for this request, you are to contact me with that estimate immediately to ensure the costs are not prohibitive to either your department or to me before the work is completed.

**Governing Statutes and Instructions**

Under Minnesota Statutes § 13.03, all government data collected, created, received, maintained, or disseminated by a government entity shall be public unless classified by statute, or temporary classification under § 13.06 or federal law, as nonpublic or protected public data or with respect to data on individuals, as private or confidential. Therefore, for each document you withhold, you are to identify the document as to date and type, and give a specific reason for withholding the document and provide the governing Minnesota Statutes supporting the withholding of that data.
If summary data has been collected as contemplated under Minnesota Statutes § 13.05, subd. 7, you are to include the summary data with any specific or general request for documents regardless if the request is made.

Finally, you are to respond to this request “promptly” under Minnesota Statutes § 13.03, subd.2(a) – including providing prompt, partial, even if incomplete disclosures, as documents become available if complete disclosure within a prompt period of time is not possible. Should you require more time, I would be open to discuss the issue if reasonably kept informed of the rationale for any delay. Nevertheless, any cooperation does not waive in any way the statutory rights to seek judicial relief for delays, denials of access to data, or other non-compliance allegations as they arise or are committed. Minn. Stat. §§ 13.08 and 13.09.

General Understanding for the Document Requests

If for any reason you do not understand the document request you are to contact me for clarification, in writing and without delay. If you are giving any word in the request a meaning other than its ordinary customary dictionary meaning, you are to identify the word and provide your own definition. If you provide your own definition, however, this does not eviscerate your obligation to complete the request and to provide the document(s).

Intentional avoidance of responding or disclosure of data relevant or relating to the request by failing to clarify the demand voluntarily, or to give words meanings contrary to customary usage will be deemed as non-responsive and subject to judicial proceedings.

All documents provided are to be complied in the categories of the requests made whenever possible. If one document fulfills more than one request, then only one copy of the complete document need be provided. Unnecessary duplication is wasteful. But, if you are not sure of its previous disclosure, then include it again to ensure the request is fulfilled. Furthermore, if a document has attachments, the integrity of the document should not be compromised. Attachments are considered part of the whole regardless if referenced in the body of the primary document responsive to the request.

Finally, if you have no document responsive to a request made, you are to specifically state “no documents found” and identify that request.

Time Period Governing the Requests

For all requests, unless otherwise stated, the time period of each request is during the period from the August 1, 2019 to the present.

Definitions

“Documents;” References in the requests for “documents” or “document” is meant to be all –inclusive such as emails, faxes, correspondence, memoranda, or notes. I can list in two
March 5, 2020
Page 6

pages of double-spaced type what “document” refers to but this should not be
necessary in a data practices act request. Therefore, objections made or non-disclosure of
documents because the request did not specifically say “report,” “letter” or “e-mail
communications or documents” for instance, is not acceptable and will be subject to judicial
proceedings if an objection is made or a relevant document is not disclosed.

Plural or singular use: when a word is used as plural, such as “policies,” it also means the
singular, such as “policy.” Therefore, if there is only one “policy” but the request is made in the
plural, you must not and cannot respond to the request in the negative because you have only one
policy yet the request asks for “policies.”

“School building” refers to Marshall Middle School.

“School district” or “district refers to Independent School District No. 413.

“School district property” refers to all school buildings with Independent School District
No. 413, inclusive of any school district administrative building.

“Student petition” or “petition” refers to a written document in which signatures are
sought and the topic refers to or relates to the proposed public display of the flag known as the
rainbow flag, PRIDE flag, or LGBTQ flag.

“Communications of any kind” refers to emails or any other method of media
communication (for example, Facebook), inclusive of the origin of that communication such as a
personal laptop, i-pad, cellphone, or similar devise, in which the person is conducting school
business or using the device to communicate on an issue or event related to the anti-bullying
policy application to a student or students or the student petition or the student petition itself
regarding the public display of the flag known as the rainbow flag, PRIDE flag, or LGBTQ flag,
“Proud to be an ally” rainbow posters or stickers, or rainbow colored peace symbol stickers, or
any other sticker, or student locker display.

Conclusion-Response Date

Please call me if you have any questions regarding this Minnesota Government Data
Practices Act request. We expect a response to this letter by March 18, 2020. Thank you.

Very truly yours,
